PUBLIC NOTICE

**Proposed Partial Closure of Slip No. 2 by KCBX Terminals
in the Calumet River in Cook County**

KCBX Terminals, Inc., 3259 E. 100th Street, Chicago, Illinois 60617 has applied for an Illinois Department of Natural Resources, Office of Water Resources permit to close the last 300 ft. of a 1,680 ft. long barge slip in the Calumet River. Slip No. 2 is located at the south end of the KCBX terminal at approximately 102nd Street and the west bank of the Calumet River in the City of Chicago.

The applicant's plans show that the slip will be closed by constructing a steel sheet pile wall across the width of the slip approximately 300 ft. from its western end. The sheet pile wall will be approximately 130 ft. long and 10 ft. wide and will be built to an elevation of approximately +6.5 ft. LWD (Low Water Datum). The sheet piles will be driven approximately 20 ft. into the river bottom. The wall will be capped with 4 inches of concrete. The enclosed area west of the proposed wall will act as a sediment basin. The sediment will consist of coal and petroleum fines from the terminal. The NPDES discharge point will be through a 4 ft. wide by 8 ft. deep spillway located in the top of the proposed sheet pile wall. An Illinois Environmental Protection Agency Final Determination Letter will be required before a permit is issued. A location map and plans are attached to this notice.

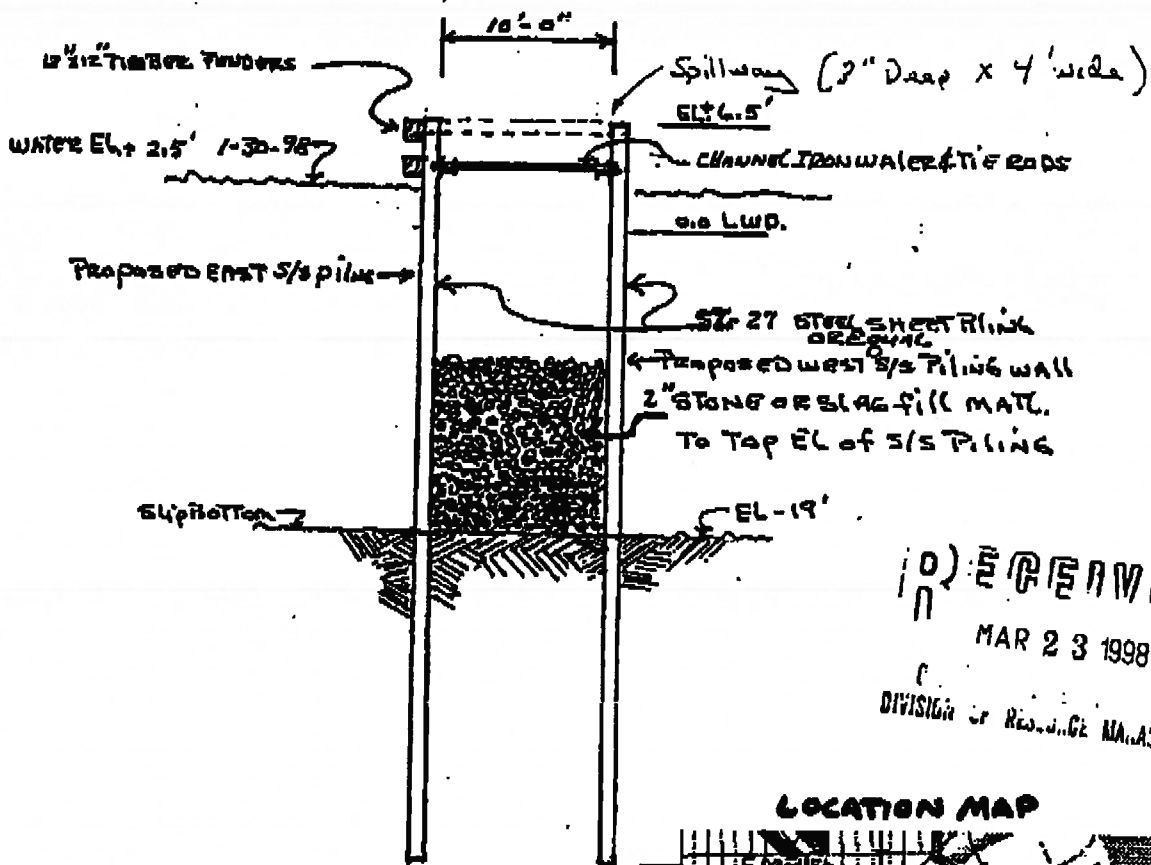

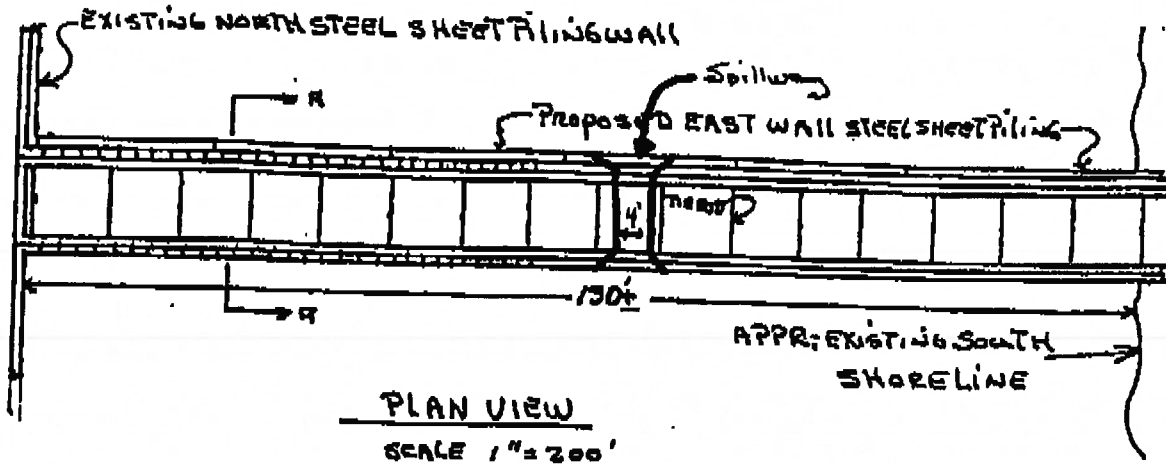

LM 1998016

No work is to start on this project unless and until such a time that the permit is issued.

Plans for the work may be seen at the Office of Water Resources, 310 South Michigan Avenue, Room 1606, Chicago, Illinois 60604. Inquiries and requests to review the plans may be directed to Jim Casey of the Chicago Office at (312) 793-5947.

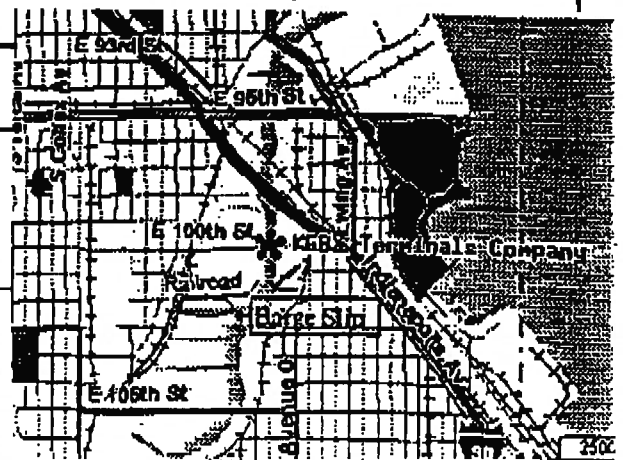

You are invited to send written comments regarding the work to the Chicago Office by April 17, 1997.
